Welding is a skill that any do-it-yourself enthusiast needs in his or her arsenal. How to Weld is the perfect introduction for newbies and an excellent refresher for veteran welders--a work so comprehensive that most readers won't need any further instruction. In How to Weld, a bestselling installment in the Motorbooks Workshop series, AWS-certified welding instructor Todd Bridgum thoroughly describes process and art of fusing metals, including: Tools and equipment commonly used Types of metals and their weldability Welding techniques Shop and site safety Types of joints. In addition, all popular types of welding variants are covered, including gas welding, shielded metal arc (or stick) welding, gas metal arc welding (MIG), gas tungsten arc welding (TIG), brazing, soldering, and even metal cutting. Each skills section concludes with a series of exercises, each illustrated with captioned sequential color photography, to fully explain and detail the techniques learned. Mechanics, automotive enthusiasts, farmers, metalworkers, and other DIYers who can't bond metal can't make repairs and they can't create—in short, they can't do much of anything except bolt together pre-made parts. With this thorough and completely illustrated all-color tutorial by an experienced college-level instructor, readers can get on the path fabricating and fixing metals on their own. How To Weld is the only book about welding they'll ever need. The Motorbooks Workshop series covers topics that engage and interest car and motorcycle enthusiasts. Written by subject-matter experts and illustrated with step-by-step and how-it's-done reference images, Motorbooks Workshop is the ultimate resource for how-to know-how.

This practical book covers neuro-critical care procedures performed in medical or surgical ICU and different procedures dedicated to acute neurological care. The book's format allows for quick decisions about care and protocols while treating neurologically injured patients. Divided into two sections, the first focuses on procedures. The outlines of these chapters include indication, technique, types of kits available, and challenges. The second section covers the protocols; these chapters feature flowcharts, drugs/device, doses of drugs, description of device, indication, evidence, and future prospects. This succinct guide will serve as a go-to reference for residents, fellows, intensivists, or any healthcare personnel within neuro-critical care unit.

Written specifically to help lawyers and non-lawyers brush up on franchise law, this respected publication - now in its fourth edition - is charged with useful definitions, practical tips, and expert advice from experienced franchise law practitioners. This practical guide examines franchise law from a wide-range of experiences and viewpoints. Each chapter is written by two experienced practitioners to provide a well-rounded guide to the fundamentals of franchise law and key issues in the practice, including trademark law; structuring the franchise relationship; disclosure issues; registration; franchise relationship laws; antitrust law; counseling franchisees; and more.

Full color illustrations throughout. Two days after the September 11, 2001 attack, the U.S. Army Center of Military History began an extensive project to document the historic event through oral history interviews. Published on the incident's tenth anniversary, Then Came the Fire is an anthology of excerpts from those interviews. This collection highlights the personal accounts of participants who witnessed some aspect of the events in the Pentagon that day: the survivors, some of whom were injured; policemen; firefighters; medical personnel; observers; others involved in the rescue and recovery efforts; and building occupants.

Haynes has discovered all the problems that motorcycle owners could possibly encounter when rebuilding or repairing their bikes. Documenting the most common DIY fixes with hundreds of illustrations and step-by-step instructions, this compendium of repair, modification and troubleshooting advice is applicable to all domestic and import marques.
