~~This scooter is surprisingly powerful and left the VSR 125 for dust on the road (the VSR 125 being a bike we were testing at the same time). It's a Euro 4 compliant single cylinder 4 stroke motor, air cooled and putting out 11.39BHP @ 8500rpm. Torque and low-end power is great for a scooter - at 10.4Nm @ 6500rpm.~~

Set your pulse racing with this stunning visual guide to over 1000 pin-up machines - iconic symbols of wanderlust, speed, and the open road. From Gottlieb Daimler's gas-powered "engine on a bicycle" which set fire to the seat on its first outing, to superbikes such as the Ducati 916, Motorcycle: The Definitive Visual History takes you on an enthralling tour of the bike's history. It shows you bikes that appeal to the head - practical forms of transport - and to the heart - a parade of classic pin-ups including cult machines such as the Honda RC30, the Triumph Bonneville, and the Harley-Davidson XR750. Motorcycle: The Definitive Visual History shows the brilliance and impracticality of different designs and features detailed cross-sections of engines such as the air-cooled two-stroke. It explains how the great marques such as the Royal Enfield, the "legendary" Indian Scout, Vespa, and Norton all became household names. Whether you are a hardcore enthusiast or looking forward to your first machine, this is one title you cannot be without.

Features photographs of women motorcyclists.

Gloria Tramontin Struck rode a motorcycle for the very first time at age 16 in 1941. Women simply didn't ride motorcycles in 1941, but at the urging of her older brother, a very reluctant Gloria gave it a try, and it changed her life forever. She has been riding ever since, and at age 92, still rides regularly and continues to participate in cross country rides. As you might expect, any woman regularly riding a motorcycle in an era when women didn't ride motorcycles has a lot of stories to tell. In Gloria Struck: 75 years on Two Wheels and Still Riding, Gloria shares with you all of her favorite stories, from back when she was being raised behind her father's motorcycle shop in Clifton NJ, through 75 years of riding tales, all the way to the present, where she is rightfully celebrated at motorcycles rallies and events. Complementing her life and riding stories is an extensive scrapbook of photos, over 100 of which are included in this autobiography. Also included are anecdotes provided by fans, friends and admirers. Of course, Gloria's book and her stories, are as much about overcoming prejudice and personal obstacles, as it is about riding motorcycles. Because of that, this book resonates with riders and non-riders alike. The message is about more than riding, it's about meeting and conquering life's challenges with courage and humor.

A celebration of the many motor trikes and three-wheeled motorcycles produced since the early days of motoring. Taking us right up to the present day, this book covers a wide range of machines from mild to wild, accompanied by original colour photographs. Featuring easy-to-read captions with minimum jargon: it will delight both enthusiasts and the novices alike.

Looks at the core concepts of user experience design and offers a variety of activities and exercises for individuals and groups.

The Haynes Service and Repair manual for the Piaggio Vespa Scooter.
