Vásquez, Miguel 1970. El papel de la experiencia sensible en el método cartesiano. Anales del Seminario de Historia de la Filosofía, Vol. 34, Issue. 3, p. 611.

Vivimos una época de profundos cambios y transformaciones. Muchas realidades e instituciones experimentan modificaciones que afectan a su estructura y modo de funcionamiento. Entre ellas, la Universidad sufre también las consecuencias de este fenómeno. Y, sin embargo, se trata de una de las instituciones más antiguas y con más solera histórica de cuantas conocemos. Su origen se remonta a la Edad Media europea, cuando se fundaron algunas de las más famosas que todavía siguen siéndolo hoy: Paris, Oxford, Cambridge, Bolonia, Alcalá de Henares, Salamanca.... El presente libro pretende ser un análisis detallado sobre los orígenes, principios fundacionales, fines y evolución de esta institución, no sólo porque ella es la responsable de la formación científica superior donde se preparan profesionales competentes en las distintas ramas del saber, sino, también, porque la Universidad ha contribuido de una manera muy destacada a la creación y evolución del mundo cultural en el que nos movemos. Especial atención merece el problema de los vínculos entre tradición y modernidad, esto es, entre la razón de ser de la Universidad tal como está quedó configurada en el momento fundacional (siglos XII-XIII) y la situación presente, con una universidad que en muchos aspectos presenta una fisonomía evidentemente muy distinta. La tesis principal del libro sostiene que, lejos de abandonar los principios y valores fundacionales básicos, la Universidad, si quiere seguir siendo fiel a sí misma, tiene que saber mantenerlos y adaptarlos a las circunstancias actuales. Es una tarea compleja, complicada y difícil, pero, por encima de las dificultades que entraña, constituye un reto que merece la pena afrontar. Jose Luis Brey Blanco es profesor de Derecho Constitucional de la Universidad CEU- San Pablo, doctor en Derecho por la Universidad Complutense de Madrid y Diplomado en Derechos Humanos por esta misma Universidad. Es autor de diversas monografías sobre Derecho Constitucional y Ciencia Política como: "Ideologías, transición política en España y Constitución", "Cristianismo y Política", "Dogmática Constitucional. La estructura básica del Estado Constitucional" y "Dos modelos de Transición democrática: Portugal y España. Un estudio comparado en el contexto de la historia del constitucionalismo", además de numerosos artículos y otras publicaciones sobre esta y otras materias en revistas especializadas y libros colectivos. Ha sido fundador y director de la Revista de Cultura "Stromata". En la actualidad desarrolla su labor de docencia e investigación en la Facultad de Derecho de la Universidad CEU-San Pablo.

Utopia. A community or society possessing highly desirable or nearly perfect qualities. It may be a dream, but it's a dream that has inspired writers for thousands of years. Plato's "Republic" may be the very first utopia presented to a mass audience, but Thomas More coined the term with his 1516 book Utopia (included here), which describes a fictional island society in the Atlantic Ocean. The term (and its antonym, dystopia) quickly entered the English language. And here are 19 other works, famous and not, featuring utopias and dystopias...works by Samuel Butler, Charlotte Perkins Gilman, Anna Bowman Dodd, William Morris, Sir Francis Bacon, and many others. Included are: EREWHON, by Samuel Butler MOVING THE MOUNTAIN, by Charlotte Perkins Gilman HERLAND, by Charlotte Perkins Gilman EQUALITY, by Edward Bellamy CAESAR'S COLUMN, by Ignatius Donnelly THE REPUBLIC OF THE FUTURE, by Anna Bowman Dodd A CRYSTAL AGE, by W. H. Hudson A

The Greate Utopias illustrated is a collection of the most famous classical works on the topic of an ideal society. “Can we live better?” For thousands of years human beings have dreamt of perfect worlds, worlds free of conflict, hunger and unhappiness. But can these worlds ever exist in reality? Many thinkers and authors have sought an answer to this question. Utopia is a perfect paradise that doesn't exist, but which we all dream of anyway. Author Thomas More actually created the noun in one of his books to describe an imaginary island where all systems — political, social, and legal — are perfect and operate harmoniously. The collection includes works by Thomas More, Tommaso Campanella, Francis Bacon.

Musaicum Books presents to you this meticulously edited collection. The Harvard Classics in 51 volumes include the essential works of world literature, showing the progress of man from antics to

modern age. In addition – there are 20 volumes of the greatest works of fiction.
