Life in North Korea | DW Documentary Dive Center Service Technician Version

Divers and diving technicians perform a wide variety of underwater jobs, both in oceans and in fresh water, using special underwater breathing equipment. The jobs include offshore oil well piping, building and repair of foundations and other underwater construction, salvage work, and ship repair and service.

Divers and Diving Technicians Job Description, Duties ...

Gas Blender and Oxygen Service Technician Every diver knows that life begins with learning how to use compressed air to scuba dive beneath the surface. But all that changed when NAUI approved the use of Enriched Air Nitrox and later the use of helium-based mixes, each for a specific diving application.

Gas Blender and O2 Service Technician | NAUI Worldwide ...

This is a 10 day ASSET & SITA and IDEST approved course, covering all aspects of service, repair and workshop operation. The course has a 9-module curriculum supported by a Dive Industry Technicians Handbook specially written to accompany the course.

Dive Industry Technician - Scuba Engineer

Scuba Equipment Service Technicians are the industry's "unsung heroes". As scuba gear essentially allows divers to breathe underwater, the people providing equipment support in the background rarely get the credits they deserve. Here at Scuba Clinic, we see the importance of the role technicians play and are working to

Technician Training – Scuba Clinic Tools

A dive center is the base location where recreational divers usually learn scuba diving or make guided dive trips at new locations. Many dive centers operate under the guidelines of ISO 24803, in which case the facilities must meet the ISO minimum standard for a service provider for recreational diving.
