The project became an exploration of how close modern technology can take us to fulfilling an ancient human dream: to take on characteristics from other animals. But instead of the ferocity of a bear, or the perspective of a bird, the characteristic most useful in modern life is something else; being present in the moment perhaps.

The dazzling success of The Toaster Project, including TV appearances and an international book tour, leaves Thomas Thwaites in a slump. His friends increasingly behave like adults, while Thwaites still lives at home, "stuck in a big, dark hole." Luckily, a research grant offers the perfect out: a chance to take a holiday from the complications of being human–by transforming himself into a goat. What ensues is a hilarious and surreal journey through engineering, design, and psychology, as Thwaites interviews neuroscientists, animal behaviorists, prosthetists, goat sanctuary workers, and goatherds. From this, he builds a goat exoskeleton–artificial legs, helmet, chest protector, raincoat from his mum, and a prosthetic goat stomach to digest grass (with help from a pressure cooker and campfire)–before setting off across the Alps on four legs with a herd of his fellow creatures. Will he make it? Do Thwaites and his readers discover what it truly means to be human? GoatMan tells all in Thwaites's inimitable style, which NPR extols as "a laugh-out- loud-funny but thoughtful guide through his own adventures."

To test the limits of our ability to inhabit lives that are not our own, Charles Foster set out to know the ultimate other: the nonhumans. To do that, he chose five animals and lived alongside them, sleeping as they slept, eating what they ate, learning to sense the landscape through the senses they used. In this lyrical, intimate, and completely radical look at the lives of animals, Charles Foster mingles neuroscience and psychology, nature writing and memoir, and ultimately presents an inquiry into the human experience in our world, carried out by exploring the full range of the life around us.

"Hello, my name is Thomas Thwaites, and I have made a toaster." So begins The Toaster Project, the author's nine-month-long journey from his local appliance store to remote mines in the UK to his mother's backyard, where he creates a crude foundry. Along the way, he learns that an ordinary toaster is made up of 404 separate parts, that the best way to smelt metal at home is by using a method found in a fifteenth-century treatise, and that plastic is almost impossible to make from scratch. In the end, Thwaites's homemade toaster–a haunting and strangely beautiful object–cost 250 times more than the toaster he bought at the store and involved close to two thousand miles of travel to some of Britain's remotest locations. The Toaster Project may seem foolish, even insane. Yet, Thwaites's quixotic tale, told with self-deprecating wit, helps us reflect on the costs and perils of our cheap consumer culture, and in so doing reveals much about the organization of the modern world.

Bizarre military history: In 1979, a crack commando unit was established by the most gifted minds within the U.S. Army. Defying all known laws of physics and accepted military practice, they believed that a soldier could adopt the cloak of invisibility, pass cleanly through walls, and–perhaps most chillingly–kill goats just by staring at them. They were the First Earth Battalion, entrusted with defending America from all known adversaries. And they really weren't joking. What's more, they're back–and they're fighting the War on Terror. An uproarious exploration of American military paranoia: With investigations ranging from the mysterious "Goat Lab," to Uri Geller's covert psychic work with the CIA, to the increasingly bizarre role played by a succession of U.S. presidents, this might just be the funniest, most unsettling book you will ever read–if only because it is all true and is still happening today.

Najeeb's dearest wish is to work in the Gulf and earn enough money to send back home. He achieves his dream only to be propelled by a series of incidents, grim and absurd, into a slave-like existence herding goats in the middle of the Saudi desert. Memories of the lush, verdant landscape of his village and of his loving family haunt Najeeb whose only solace is the companionship of goats. In the end, the lonely young man contrives a hazardous scheme to escape his desert prison. Goat Days was published to acclaim in Malayalam and became a bestseller. One of the brilliant new talents of Malayalam literature, Benjamin's wry and tender telling transforms this strange and bitter comedy of Najeeb's life in the desert into a universal tale of loneliness and alienation.

Skeletal specters. A red-eyed wild man. Devilish witches. Ghost stories abound in almost every town, and Texas towns are no exception. Cotton Bales, Goatmen & Witches: Legends from the Heart of Texas put vivid photographs with the region's old ghost stories into a beautiful 146-page hardcover coffee table book. These legends and myths, compiled by Bradley T. Turner and accompanied by photographs from Mark Burdine, bring to life the whispered stories and forgotten secrets that illuminate the darkest recesses of the Texas psyche from the distant past to the present day.

From New York Times bestselling author Douglas Clegg comes a novel of heart-pounding suspense and supernatural horror. What secrets lie within the ancient place known as the Goat Dance? In winter, in the mountains, a darkness envelopes a town...a house on the edge of a lake holds the key to its horrifying secret. A Haunted Lake... Seven-year-old Teddy Amory should have died that winter's day on Clear Lake, when she fell through the ice while skating with her older brother, Jake. But something got inside her that day . . . something terrifying... A Town in Shadows... Nightmarish forces lurk in the mountains of Virginia, and darkness has begun to spread like a shroud over the living. Those long-dead return in nightmares. In the summer of 1983, a young teen named Danny Brent and his two best friends share good times and special moments while enjoying that unique magic of childhood, an all too brief time when anything seemed possible. They also share a chilling adventure that bonds them together well into adulthood. Now, for the first time in almost thirty years, Danny is sharing his secret about what really happened, the story about his brief encounter with the Goatman - a legendary creature that exists on the outskirts of town in a haunted area called Goatman's, how he saved his life, and what happens afterwards. From the author: "The Goatman" is very much inspired by Stephen King's "The Body," which was then made into the brilliant film "Stand By Me." I wanted to capture the essence of what it was like to be a young boy and growing up, spending time with your best friends, a magical time when every day was an adventure and anything seemed possible.
