What is that lyric in that one song? 'The lure of easy money has a very strong appeal'. Maybe you decided to get into the day trading business of investing and/or investing and trading because you saw some late-night TV commercial about day trading with flashy offers. Perhaps you received a spam e-mail touting some day trading method or system that said you could make easy money in the markets; I suggest you reconsider if that's the case. Death by Day Trading is for all beginning aspiring investors and traders who are just getting their head around doing the day trading business who go online and do a search to find information on how to do financial market trading and it should be the first book a brand new beginner reads before any other books on trading as far as I'm concerned and will be the most harsh and brutal day trading book they have ever read. Everyone has their own ideas of what they think day trading is and what it can do for them; you need to look at it from a realistic perspective from the start and Death by Day Trading is absolutely going to help you to do that. This book is for beginners and will detail many of the things that a brand new trader must learn not to do before they can become consistently profitable in the live markets. You're heard the saying 'just say no to drugs', just say no to day trading and you and your account will be waaaaay ahead of the game to start off. Don't say I didn't warn you, OK, continue with your insanity and read the entire book to give yourself a fighting chance. Death by Day Trading can help you keep it simple and filter the huge amount of information out there down to only what you need to know right away and then can work towards adding more information and studies as you go. My trading philosophy is to start small and build on success have limited exposure while you hone your skills, then progress as you become more competent. You can use Death by Day Trading and the references, suggestions and tips in it to go further into your educational studies of the markets and there dynamics. Knowing market dynamics is going to be critical for you to have the winning edge you will need to be a successful market participant. By studying what this book suggests you will not become one of the 97% of the sheeple of the herd, don't become one of them.

Learn how to detect any corporate sleight of hand—and gain the upper hand with smart investing Investing expert John Del Vecchio and "Motley Fool" Tom Jacobs offer a compelling arguement that the secret to stock-market success today isn't finding the next Google or eBay, but avoiding the next AIG or Enron. To that end, they offer simple, clear techniques for detecting when and how legitimate companies make their numbers look better than they are. What's Behind the Numbers? offers seven rules for finding companies playing with—rather than by—the numbers and explains how to avoid losing money by determining exactly when a stock is about to head south. John Del Vecchio, CFA, serves as a Principal of Ranger Alternative Management and principal of Parabolix Research, Inc. Tom Jacobs is lead advisor for the Motley Fool Special Ops, a stock service where he manages a special situations and opportunistic portfolio. He is cofounder of Complete Growth Investor LLC.

In Don't Mess It Up: How Founders and Their Successors Can Avoid the Clichés That Inhibit Growth, author and six-time second CEO Les Trachtman offers his expertise on the most effective ways to successfully hand off your company to a worthy successor. He also has advice for those who are inheriting a business and want to take it to the next level, as well as for boards who are dealing with these leadership transitions. In his direct, no-nonsense approach, Les shows readers how seemingly harmless business clichés such as "get it right" and "be careful" can have a detrimental effect on a company's future by conveying that such imperative ingredients such as risk and innovation are things to now be avoided. Readers will learn how to: • Understand the metamorphosis required to transition from great founder to great CEO • Know when, and if, it's time to replace yourself • Pick the right successor • Prepare yourself and your company for the fragile transition • Create a successful CEO transition • Separate yourself from the company There is likely no one more experienced in founder transitions than Les Trachtman. He has been an innovative and respected successor at six different companies; let his hard-won advice guide you through your transition and toward success.

San Francisco's residential real estate is the hottest market for buyers and sellers in the country. If you're planning on entering the market, you may need the advice of real estate agent Malcolm Kaufman (BRE#01310392). For ten years, Kaufman has chronicled the region's real estate market. Through this publication, he has educated buyers on how to save money and sellers on how to maximize their profit. For the first time, these articles are now collected into one book-with sections dedicated to topics like changing neighborhoods, the factors driving San Francisco real estate, and what to keep in mind when buying/selling a home. Pulse of the Market offers an array of valuable information from an insider who knows both ends of the spectrum. So whether you're a buyer or a seller, Kaufman can help you make more informed decisions and negotiate a better deal. Just like his monthly newsletters, Kaufman's book is both concise and entertaining. A San Francisco resident, he knows what makes the area's real estate market tick-bringing his extensive knowledge in this one-of-a-kind guide to the hottest market around.

Millions of Americans are embroiled in the penal system - and tens of millions more are at risk of being sent to prison for crimes large and small. "Stay Out Of Prison: A Practical Guide to Avoiding Incarceration" is an in-depth look at criminal thinking and criminal behavior, the legal system, how crimes are investigated and prosecuted, and how you can minimize your chances of being imprisoned. An excellent book both for those who may be running the risk of incarceration, as well as those who worry about their family members or friends.
