direct, but it is time for you to discover why you feel the way you do and then figure out what to do about it. Or you can just write stuff in it! The great thing about a lined journal is you can make it into anything you want. A day timer, travel journal, diary, notebook for school, etc. If you need to write

you need. If you want to use it for  
more than just a notepad then keep  
reading. Benefits Of Keeping A  
Journal Almost every successful  
person seems to have kept a journal in  
one form or another. Success in this  
case is not defined by money but

because it is all about you. Just some  
of the benefits of journaling are: Allows  
you to reflect on your life and the  
changes you are choosing to make or

just something you doodle in. No matter how you use it getting into the daily habit of journaling has the potential to improve the quality of your life. How To Use A journal Let's look past the simple fact you know how to physically write in a journal and dig into how to actually use your journal. It

might contain all the secrets to life's biggest problems but unless you know how to uncover those secrets they stay hidden away in your words. Let the words flow from the heart and be filled with emotions, no holdbacks  
Make a daily journaling schedule.  
Each and every day take the time to

record your thoughts morning and  
night. If you love to type notes into  
your phone all day transfer them to  
your journal after. Sit in a quiet spot  
and allow yourself to be judgement  
free. Your journal is not a reason to  
turn yourself into an emotional  
punching bag. Start small. You do not

need to write a specific number of  
words. Just the right amount of honest  
words that let you feel a sense of  
being free from negativity and  
energized with possibility. If you write  
in your journal like someone is going  
to read it, you will ever allow yourself  
to fully express what needs to be

expressed. Write like no one will ever read it because it is likely no one ever will unless you want them to. Write how you loved something, were mad at someone, wished something was different or anything you need to. Just do it. Start today writing in your journal. You could even put "Today I

Journaling is an ancient tradition, one that dates back to at least 10th century. Triumphant people throughout

history have kept journals. Presidents, artists, and families have maintained them for posterity; other famous figures for their own reasons. There is increasing evidence to support the idea that journaling has a positive impact on physical well-being. Science has shown that writing about stressful

events helps you come to terms with them, thus reducing the force of these stressors on your physical well-being. Scientific evidence supports that journaling provides other unexpected benefits. The act of writing accesses your left brain, which is logical and rational. While your left brain is

occupied, your right brain is free to create, discern and feel. In sum, writing removes mental blocks and allows you to use all of your brainpower to better understand yourself, others and the world around you. Benefits Of Journaling:

Lydia (every woman, not a real
