The Kashmir problem. As long as the territory's existence was guaranteed by the United Kingdom, the weaknesses in its structure and along its peripheries were not of great consequence, but they became apparent after the British withdrawal from South Asia in 1947. By the terms agreed to by India and Pakistan for the partition of the Indian subcontinent, the rulers of princely states were given the right to opt for either Pakistan or India or—with certain reservations—to remain independent.

Provides an authoritative, accessible primer on what is potentially the world's most dangerous crisis, concisely distilling sixty-three years of complex history, tracing the roots of the relationship between India and Pakistan, explaining the many attempts to resolve their disputes, and assessing the dominant political leaders -- from cover.

The Kashmir dispute dates from 1947. The partition of the Indian sub-continent along religious lines led to the formation of India and Pakistan. However, there remained the problem of over 650 states, run by princes, existing within the two newly independent countries. The Line of Control (LOC) between India and Pakistan is perhaps the most dangerous place in the world. Both India and Pakistan have their own political reasons for continuing the fighting. Although the ruler of Jammu and Kashmir, Hari Singh, was an Indian, most of his subjects were Muslims. War was averted when India and Pakistan agreed to a plebiscite to decide the fate of Kashmir. There were delays in implementing this decision, however, and increasingly it became clear that the Indians wanted to keep that portion which contained Jammu and Kashmir. Despite numerous United Nations resolutions the dispute remained unsettled. Pakistan argued that Kashmir should become a part of Pakistan because the majority of its inhabitants were Muslims. The Indians claimed, without proof, that Kashmiris wanted to remain a part of India. In 1972 Indira Gandhi, the Indian prime minister, and Zulfikar Ali Bhutto, her Pakistani opposite number (and father of Benazir Bhutto, a later Pakistani premier), signed the Simla Agreement, which reiterated the promises made in Tashkent. The two sides once again agreed to resolve the issue peacefully, as domestic issues dominated. Both India and Pakistan had other important domestic problems which kept Kashmir on the back-burner. In a diverse country like India, disaffection and discontent are not uncommon. Indian democracy has the necessary resilience to accommodate genuine grievances within the framework of our sovereignty, unity and integrity. Government of India has expressed its willingness to accommodate the legitimate political demands of the people of the state of J&K. However, Pakistan sponsored terrorists have terrorised the population and hindered political dialogue by intimidating or silencing voices of

moderation that wish to engage in dialogue. The human rights of the people of J&K have been systematically violated by such terror tactics and the kidnappings and killings of innocent people by terrorists. Every effort has been taken to make this book useful for students of conflict resolution scholars and general readers.

An excellent presentation of the many complex factors which stem from the Kashmir dispute between India and Pakistan. The author as the original Czech member of the United Nations Commission for India and Pakistan, brings to his narrative first-hand experience. Originally published in 1954. Solving Kashmir is a treatise on the Kashmir imbroglio that gives a deep insight into the myriad facets of the dispute in the State of JandK. It brings into focus the historical perspective, the geo-strategic and geo-political imperatives, as also the interests of the world powers and other regional players especially Pakistan and to an extent China. This vital piece of real estate located in the under belly of the CARS and Russia gives access to Tibet, Afghanistan and Pakistan. JandK is strategically significant to India's existence as a nation. Historically, Kashmir has been an important gateway for marauders entering the country. Losing control of JandK would open up the floodgates again. Kashmir gives India access to the strategically significant countries around JandK. It is our jewel in the crown. The main players in the dispute namely, India and Pakistan have gone to war four times over the issue with Pakistan enduring humiliating defeats, including its partition with the creation of Bangladesh. Having failed in its conventional attempts to wrest Kashmir and still in search of its identity, Pakistan has exercised the low cost/ no cost proxy war option, exploiting the ethnic and religious sentiments of the local Kashmiris, as also drumming up support from religious fundamentalists internationally. The nuclear dimension adding to the tinder box forces the international community of nations to concentrate efforts to bring the two nations to the negotiating table and resolve the problem bilaterally in accordance with the Shimla Agreement, however, with no significant success. How long will India continue to bleed? and "Where do you go from here?" are questions that will continue to haunt India for years to come.

Kashmir has been on the mind of Maharaj Kaul ever since the eruption of the civil war there in 1989, and it has been in his mind since his childhood, as he was born there. For him Kashmir is more than his birthplace, it is an irrigator of his consciousness. The author of the books *The Light Through The Woods: Dreams Of Survival Of Human Soul In The Age Of Technology* and *Inclinations And Reality: The Search For The Absolute* published last year examines the ongoing civil war in Kashmir over the last two decades that has wounded both the Kashmiri Muslims and Pandits in the spheres of personal, economic, social, and political lives and it has rendered the latter into refugees in their own nation, exiled from their home of 5,000 years. Thousands of Kashmiris have died, a lot more wounded; but the end is not even in sight. The soul of Kashmir is under pressure. The book explores the causes and history of Kashmir Problem and what its solution should be. It also celebrates some of its outstanding people and provides vignettes of some of its popular places, culture, life, and mystifying natural beauty. It is both a mourning over the tragedy of Kashmir and a celebration of its spiritual essence.
