fundamentals of several
different core
disciplines, and should
prepare students to meet
challenges associated
with solving real-life
mechanical engineering
design problems
commonly found in
industry. Other works
focus primarily on

Assemblies addresses the design considerations associated with the functionality of a full assembly. Most chapters end with a design project that gets progressively more complex. Numerous reviews of prerequisite materials are purposely not included in this title,

A new and incisive analysis of the political viability of human rights, with an in-depth investigation of its largest violation: world hunger. Gonzalez-Pelaez develops John Vincent's theory of basic human rights within the context of the

society of states as the framework of analysis, she explores the potential that the current system has to correct its own anomalies, and examines the measures that can move the hunger agenda forward in order to break through its current stagnation.

Single mom Lizzie Bea Carpenter learned long ago that no white knight was coming to save her. A hardworking waitress at the local diner, she's raising her daughter to be like the independent women in her "Enemy Club"--high school rivals turned best friends, promising to always tell each other the whole truth and

nothing but! Yet part of

Lizzie wishes she did
have a man's help, just
for small stuff, like
fixing up the house. Her
fairy godmother must
have been listening,
because Dante "Tay"
Giovanni soon appears.
He's sexy, kind, and
offering assistance--no
strings attached. Slowly,
steadily, Lizzie's heart
opens. But the grip of

the past is fierce, and nothing in life is ever really free. Tay has his own tragedies to overcome, but if he can, he'll fix more than Lizzie's home. He'll show her just how sweet it is to be loved by him.

A masterful narrative—with echoes of *Evicted* and *The Color of Law*—that brings to

life the structures, policies, and beliefs that divide us Mark Lange and Nicole Smith have never met, but if they make the moves they are

contemplating—Mark, a white suburbanite, to West Baltimore, and Nicole, a black woman from a poor city neighborhood, to a prosperous suburb—it

will defy the way the Baltimore region has been programmed for a century. It is one region, but separate worlds. And it was designed to be that way. In this deeply reported, revelatory story, duPont Award–winning journalist Lawrence Lanahan chronicles how the region became so highly segregated and

why its fault lines persist today. Mark and Nicole personify the enormous disparities in access to safe housing, educational opportunities, and decent jobs. As they eventually pack up their lives and change places, bold advocates and activists—in the courts and in the streets—struggle to

figure out what it will take to save our cities and communities: Put money into poor, segregated neighborhoods? Make it possible for families to move into areas with more opportunity? *The Lines Between Us* is a riveting narrative that compels reflection on America's entrenched inequality—and on where

the rubber meets the road not in the abstract, but in our own backyards. Taking readers from church sermons to community meetings to public hearings to protests to the Supreme Court to the death of Freddie Gray, Lanahan deftly exposes the intricacy of Baltimore's hypersegregation

through the stories of ordinary people living it, shaping it, and fighting it, day in and day out. This eye-opening account of how a city creates its black and white places, its rich and poor spaces, reveals that these problems are not intractable; but they are designed to endure until each of us—despite living in separate
