Introduces Android 5.0<sup>™</sup> (Lollipop<sup>®</sup>) for Nexus and Google Play edition devices. Available globally. For complete online help, see <http://goo.gl/Sn5RG8>

Smartphones are getting a little boring. All of the top devices have roughly the same features and specs. Manufacturers are trying harder than ever to differentiate their devices. The display has become an area of experimentation, but we're not talking about pixels. More and more devices are getting curved displays, and one of the best entries is the LG G Flex 2. We're at a point where many people consider curved displays to be nothing more than a gimmick. Manufacturers keep trying to find valuable uses, but so far no one has made a compelling case for why you need a curved display. LG has taken a much different approach. The G Flex 2 is not full of gimmicky features and silly widgets. It's all about comfort, and that might be the best reason yet for curved displays.

The Ultimate Guide to Mastering an Android device for Beginners and Seniors! If you're holding your shiny new Android smartphone and wondering how to get the most from it, then you've come to the right place. There are different versions of the software, there are plenty of different manufacturer skins layered over that Android core, like those from Samsung or LG, and there's a limitless level of customization you can apply from Google Play, or other third-party sources. Very Few Android devices are alike, but all Android devices have the same foundation. So, starting at the beginning, here's a book to guide you on how to use your new phone. It takes more than a good eye and an amazing tech knowledge to use android like a pro. With the help of Android Phones User Guide for Beginners, you'll find all the expert advice and know how you need to unlock your phone's capabilities to their fullest potential. From working with the basics of setup and exposure to making sense of your camera's fanciest features and so much more. Here's a preview of what you'll learn Learn the five basic options for setting up and customizing your phone How to use the find my phone feature How to backup your contacts Put your skills together to take excellent pictures To grab a copy, please scroll to the top of this page and click the buy now button!

LG has launched what many have dubbed the best smart phone of 2015. The LG V10, initially known as the LG G4 Pro, was released to the public in October of 2015. Described as a premium phone by tech critics, the LG V10 is similar in design to the LG G4 and bears similar features. A few of these features include the Quad-HD IPS Quantum display and Rear Key. The LG V10 however can boast a plethora of new and innovative features. The phone comes to the market with features such as Dual screens: a 5.7 inch Quad HD panel and a 2.1 inch IPS panel, dual 5 megapixel front cameras, a 16 megapixel rear camera with multi-view recording capabilities, fingerprint scanner, the ability to capture video in HD, full HD or the new 4K technology and a 3000 mAh removable battery pack. The LG V10 is also able to boast internal storage capacity of approximately 64 GB while supporting up to 2 TB with a micro SD card. This article will seek to introduce users to the features integrated into the new LG V10 phone.
