Unlike the uneasy city dwellers the book describes, Notes from No Man's Land interrogates the source and veracity of our greatest racialized anxieties, about black men and gangs and bad neighborhoods, about Mexican interlopers and mixed-race adoptions. Biss argues that these worries often result from misunderstanding and a guilty conscience.

Winner of the National Book Critics Circle Award for Criticism Winner of the Graywolf Press Nonfiction Prize A frank and fascinating exploration of race and racial identity Notes from No Man's Land: American Essays begins with a series of lynchings and ends with a series of apologies. Eula Biss explores race in America and her response to the topic is informed by the experiences chronicled in these essays -- teaching in a Harlem school on the morning of 9/11, reporting for an African American newspaper in San Diego, watching the aftermath of Katrina from a college town in Iowa, and settling in Chicago's most diverse neighborhood. As Biss moves across the country from New York to California to the Midwest, her essays move across time from biblical Babylon to the freedman's schools of Reconstruction to a jim Crow mining town to post-war white flight. She brings an eclectic education to the page, drawing variously on the Eagles, Laura Ingalls Wilder, James Baldwin, Alexander Graham Bell, Joan Didion, religious pamphlets, and reality television shows. These spare, sometimes lyric essays explore the legacy of race in America, artfully revealing in intimate detail how families, schools, and neighborhoods participate in preserving racial privilege. Faced with a disturbing past and an unsettling present, Biss still remains hopeful about the possibilities of American diversity, "not the sun-shininess of it, or the quota-making politics of it, but the real complexity of it."

The "absorbing and powerful" (Wall Street Journal) story of two pioneering suffragette doctors who shattered social expectations and transformed modern medicine during World War I. A month after war broke out in 1914, doctors Flora Murray and Louisa Garrett Anderson set out for Paris, where they opened a hospital in a luxury hotel and treated hundreds of casualties plucked from France's battlefields. Although, prior to the war and the Spanish flu, female doctors were restricted to treating women and children, Flora and Louisa's work was so successful that the British Army asked them to set up a hospital in the heart of London. Nicknamed the Suffragettes' Hospital, Endell Street soon became known for its lifesaving treatments. In No Man's Land, Wendy Moore illuminates this turbulent moment of global war and pandemic when women were, for the first time, allowed to operate on men. Their fortitude and brilliance serve as powerful reminders of what women can achieve against all odds.

Two interwoven stories linking Jacob Todd and his grandson visiting Amsterdam for the commemoration of the Battle of Arnhem.

The author of Defining the Wind details his efforts to retrace the footsteps of Odysseus from Troy to Ithaca as recorded in Homer's great epic The Odyssey, following the Greek hero on his journey around the Mediterranean to discover why this ancient tale has continued to resonate with Western readers for millennia. Reprint.

He signed up to fight with visions of honour and glory, of fighting for king and country, of making his family proud at long last. But on a battlefield during the Great War, Robert Jones is shot, and wonders how it all went so very wrong, and how things could possibly get any worse. He'll soon find out. When the attacking enemy starts to shapeshift into a nightmarish demonic force, Jones finds himself fighting an impossible war against an enemy that shouldn't exist. After his father is accused of murder, combat veteran and Special Agent John Puller must investigate his past and learn the truth about his mother in this New York Times bestselling thriller—but someone hiding in the shadows wants revenge. Two men. Thirty years. John Puller's mother, Jackie, vanished thirty years ago from Fort Monroe, Virginia, when Puller was just a boy. Paul Rogers has been in prison for ten years. But twenty years before that, he was at Fort Monroe. One night three decades ago, Puller's and Rogers' worlds collided with devastating results, and the truth has been buried ever since. Until now. Military investigators, armed with a letter from a friend of Jackie's, arrive in the hospital room of Puller's father—a legendary three-star now sinking into dementia—and reveal that Puller Sr. has been accused of murdering his wife. Aided by his brother Robert Puller, an Air Force major, and Veronica Knox, who works for a shadowy U.S. intelligence organization, Puller begins a journey that will take him into his own past, to find the truth about his mother. Paul Rogers' time is running out. With the clock ticking, he begins his own journey, one that will take him across the country to the place where all his troubles began: a mysterious building on the grounds of Fort Monroe. There, thirty years ago, the man Rogers had once been vanished too, and was replaced with a monster. And now the monster wants revenge. And the only person standing in his way is John Puller.

"Classic memoir of the Great War by a General who was not afraid to show his face in the front line - or even in No Man's Land. One of the best-known memoirs of the First World War written by a senior officer. The author served with the 9th Royal Irish (36th Ulster Div.) 1915-17 including the Somme Battles. And he commanded the 119th Inf. Bde. 1917-18. Crozier had the reputation of a hard-driving but hands-on CO who resorted to personally patrolling no-man's-land to obtain information. This book reflects his colourful personality."-N&M Print Edit.

Considered by many the greatest war novel of all time, All Quiet on the Western Front is Erich Maria Remarque's masterpiece of the German experience during World War I. I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. "The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure."—The New York Times Book Review

The inspiring, heart-pumping true story of soldiers turned cyclists and the historic 1919 Tour de France that helped to restore a war-torn country and its people. On June 29, 1919, one day after the Treaty of Versailles brought about the end of World War I, nearly seventy cyclists embarked on the thirteenth Tour de France. From Paris, the war-weary men rode down the western coast on a race that would trace the country's border, through seaside towns and mountains to the ghostly western front. Traversing a cratered postwar landscape, the cyclists faced near-impossible odds and the psychological scars of war. Most of the athletes had arrived straight from the front, where so many fellow countrymen had suffered or died. The cyclists' perseverance and tolerance for pain would be tested in a grueling, monthlong competition. An inspiring true story of human endurance, Sprinting Through No Man's Land explores how the cyclists united a country that had been torn apart by unprecedented desolation and tragedy. It shows how devastated countrymen and women can come together to celebrate the adventure of a lifetime and discover renewed fortitude, purpose, and national identity in the streets of their towns.
