Manual of Tropical Housing and Building: Climate Design ...

Introduction Having had several stints in the humid tropics throughout my Permaculture work (2005-2016), I have come to better understand the design topics addressed by Mollison in his books regarding this climatic context of housing. During those tropical times, I inhabited several concrete buildings and the living conditions were intoxicating. Molds would build, air quality was low, humidity ...

Manual Of Tropical Housing And Building By Koenigsberger.rar

Tropical Climate Characteristics Hot weather . The weather is hot all year, averaging 25 to 28 degrees Celsius. This is because the tropics are more exposed to the sun. For all that exposure to the sun, the tropics do not experience seasons like the rest of the Earth. The tropical seasons are divided into two: wet and dry. (eds), 2011).
