Surrealism: Key Concepts | Taylor & Francis Group

In theoretical terms surrealism is constituted both as an epistemology and as a set of practices. The surrealist movement, throughout its long history and its many participants, has developed its epistemological means with the aim of provoking revolutionary change in life and in the world. The emphasis on automatism in surrealism's foundation, underlined by Andre Breton in the dictionary definition given in the first manifesto, has tended to overshadow the second, philosophical, part of ...
