Las políticas industriales a menudo han causado más daño que beneficio. El nuevo marco conceptual presentado en este libro permite a los países adoptar las políticas de desarrollo productivo necesarias para prosperar, evitando caer en los errores del pasado. El libro replantea el desarrollo productivo a través de la investigación de las fallas de mercado que impiden la transformación y de las fallas de gobierno que pueden convertir a los remedios de políticas en algo peor que los males de mercado. Utilizando un marco conceptual simple, basado en el alcance y naturaleza del enfoque de políticas, los autores sistemáticamente analizan las políticas de los países en áreas clave como innovación, empresas nuevas, financiamiento, capital humano e internacionalización. Reconociendo que incluso las mejores políticas fallarán sin la capacidad técnica, organizacional y política para implementarlas, el libro concluye con ideas sobre cómo diseñar instituciones con los incentivos adecuados, incrementar las capacidades del sector público a lo largo del tiempo y promover una constructiva colaboración público-privada.

New York is a city whose DNA comes from all over the world, a fantastic and unique place belonging to America yet not completely American. Such a strong cultural personality deserves a book, and Martine Assouline introduces this grand new title as "a little tribute to the New York I love." Travel through the most important periods of this great city and into all its boroughs, from Manhattan and Brooklyn to the Bronx and Queens to Staten Island with glimpses into its history and the development of its world-renown skyline. Discover stories from immigration in the early twentieth century to Prohibition in the 1920s to the youth revolution in the sixties. Remember the best moments in Broadway and the discos at Studio 54; dream with F. Scott Fitzgerald, Truman Capote, and Audrey Hepburn or Madonna and Jean-Michel Basquiat.

This book has been written on the basis of the research done between 2008 and 2010 as part of the European Commission funded FREIGHTVISION project. The "FREIGHTVISION - Freight Transport 2050 Foresight" project was funded by the Directorate General MOVE to design a long term vision for European freight transport in 2050 and to identify actions and research to progress appropriate freight transport measures in Europe. The project was carried out as a foresight process encompassing four conferences in which the project team identified and developed with the aid of more than 100 experts an action plan for securing long term freight transport in Europe. The book provides insights into the freight transport visions and Backcasts identified for 2035 and 2050, issues which need to be addressed and measures which were assessed to be part of future paths to assure an economical, environmental, and social freight transport system.

The dictatorship of Rafael Trujillo, who ruled the Dominican Republic from 1930 until his assassination in 1961, was one of the longest and bloodiest in Latin American history. The Dictator's Seduction is a cultural history of the Trujillo regime as it was experienced in the capital city of Santo Domingo. Focusing on everyday forms of state domination, Lauren Derby describes how the regime infiltrated civil society by fashioning a "vernacular politics" based on popular idioms of masculinity and fantasies of race and class mobility. Derby argues that the most pernicious aspect of the dictatorship was how it appropriated quotidian practices such as gossip and gift exchange, leaving almost no place for Dominicans to hide or resist. Drawing on previously untapped documents in the Trujillo National Archives and interviews with Dominicans who recall life under the dictator, Derby emphasizes the role that public ritual played in Trujillo's exercise of power. His regime included the people in affairs of state on a massive scale as never before. Derby pays particular attention to how events and projects were received by the public as she analyzes parades and rallies, the rebuilding of Santo Domingo following a major

hurricane, and the staging of a year-long celebration marking the twenty-fifth year of Trujillo's regime. She looks at representations of Trujillo, exploring how claims that he embodied the popular barrio antihero the tiguere (tiger) stoked a fantasy of upward mobility and how a rumor that he had a personal guardian angel suggested he was uniquely protected from his enemies. *The Dictator's Seduction* sheds new light on the cultural contrivances of autocratic power.
