About By Jackson Mike

2011\_09\_01 Paperback

A polling place is where voters cast their ballots in elections. The phrase polling station is also used in American English and in British English, although polling place is the building and polling station is the specific room where voters cast their votes. A polling place can contain one or more polling stations. Since elections generally take place over a one- or two-day span on a periodic basis, often annual or longer, polling places are usually located in facilities used for other purposes

rather than rents.

## Building - Wikipedia

The fact that buildings and structures don't move tells us that the forces acting on them must indeed be balanced—and that's why we call these sorts of constructions static structures. If you've ever seen a building being demolished by a crane with a wrecker ball (a ball and chain), you will have noticed that buildings can stay up even with most of their walls knocked away.
